Florida Man Sentenced for Securities Fraud in Montgomery County, Alabama

MONTGOMERY, ALABAMA (March 12, 2015) Daryl Bailey, District Attorney for the 15th Judicial Circuit, Montgomery County, Alabama; and Joseph Borg, Director of the Alabama Securities Commission (ASC) announced that on March 10, 2015, William Chris Blane (“C. Blane”), of Vero Beach, Florida, was sentenced by Montgomery County, Alabama Circuit Court Judge Eugene Reese, to 15 years incarceration, split to serve three years with five years probation that will be served upfront. Blane’s probation was ordered so that he can make restitution payments totaling \$2,926,870, plus fines and fees ordered by the Court and required by statute.

In January, 2015, Blane pleaded guilty to four counts of securities fraud. At the time of the crimes the pleas were all Class C felonies punishable by not more than 10 years, nor less than 1 year and 1 day in prison and not more than a \$15,000 fine per charge. The defendant agreed to make restitution payments over a four year time period during his probation.

Chris Blane’s charges resulted from May and November, 2014 Montgomery County, Alabama Grand Jury indictments relating to the offer and sale of securities in EyeWonder, Inc., an Atlanta, Georgia-based company; and Poly-Triplex Technologies, Inc./Poly-Triplex Investors, LLC, both Florida-based companies. ASC records indicated that C. Blane was not registered with the ASC to legally offer and/or sell securities into, within, or from Alabama.

The ASC cautions potential investors to thoroughly scrutinize and research any investment opportunity or offer. Contact the ASC with inquiries concerning securities broker-dealers, agents, investment advisers, investment adviser representatives, financial planners, registration status of securities or debt management programs, to report suspected fraud or to obtain consumer information. The ASC provides free investor education and fraud prevention materials in print, on our website and through educational presentations upon request.
