CEASE AND DESIST ORDER

The Alabama Securities Commission ("Commission"), having the authority to administer and provide for the enforcement of all provisions of Title 8, Chapter 6, Code of Alabama 1975, the Alabama Securities Act ("Act"), upon due consideration of the subject matter hereof, has determined as follows:

RESPONDENTS

1. **ACoin TRADING** ("ACoin TRADING") is an online entity that purports to be an online crypto currency trading platform, having a business address of Melbourne, HS2 9QE, UK. **ACoin TRADING** is accessible via the website <https://acointrading.com> and may be served through its domain registrar **NAMECHEAP INC** located at 4600 East Washington Street, Suite 305, Phoenix, AZ 85034 via legal@namecheap.com.

2. **SIR PHILIP ZUKA**, whose identity is otherwise unknown, is the owner of **ACoin TRADING** and the 96 other trading websites identified in Attachment A to this order. All of which purport to be online crypto currency trading platforms, having a business addresses of Melbourne, HS2 9QE, UK and may be served through their domain registrar **NAMECHEAP INC** located at 4600 East Washington Street, Suite 305, Phoenix, AZ 85034 via legal@namecheap.com.

STATEMENT OF FACTS

3. On May 27, 2021, an Alabama resident filed a written complaint with the Commission regarding an investment made with a crypto currency trading platform named **ACoin TRADING**. The Alabama resident discovered the **ACoin TRADING** website by browsing the internet for crypto currency trading platforms. The Alabama resident then direct messaged the **ACoin TRADING** representative hereinafter called "the representative" through the Telegram chat application for more information.

4. After the Alabama resident direct messaged the representative, the representative responded by stating, *"I direct my clients to earn by a unique method over here through trading. If I showed you a process to increase that \$10,000 to over \$80,000 in a week using a method known as price action margin. Would you be willing to give me 20% once you withdraw??"* The Alabama resident then created a profile on **ACoin TRADING** and participated in a demo/training session to learn how to use the trading platform. While participating in the demo/training session, the representative had the Alabama resident switch their communications to the WhatsApp chat application. The representative gave the number +1 (857) 600-2504. After participating in the demo/training session, the Alabama resident felt confident in the product and invested .25587272 bitcoin. The bitcoin was deposited to a wallet provided on the **ACoin TRADING** website.

5. The Alabama resident then became suspicious when the invested funds could not be withdrawn from the **ACoin TRADING** account, because it would state funds are not sufficient. The Alabama resident then communicated with the representative again over WhatsApp chat inquiring why the funds could not be withdrawn. The representative stated it was because the contract had not been received from the Alabama resident.

6. The Alabama resident signed and sent the contract but further discovered none of the customer service links worked on the website. The Alabama resident confronted the representative about the issues and the representative continued the scam by making the account appear to have a balance of 1.85 bitcoin due to the trading. The representative then stated the Alabama resident could withdraw the funds after .2 bitcoin is paid to the representative. The representative demanded to be paid from another bitcoin transfer from the Alabama resident's wallet and not

from the **ACoin TRADING** account. It was at this point the Alabama resident realized they were being scammed. The Alabama resident then ceased communications with the representative.

7. Throughout the conversations, the representative provided the Alabama resident with a Broker Check Report claiming to be a registered representative. The investigation revealed the true representative is not associated with **ACoin TRADING**, and the photo used for the profile picture of the representative on Telegram is a stock photo from an individual that is not an investment advisor or broker.

8. Legal process served during the investigation revealed the owner of the website was Namecheap Inc Username "sirzuka" with Namecheap Inc subscriber name of Sir Philip Zuka. It further revealed "sirzuka" had created 281 websites through Namecheap Inc. Of the 281 websites, 127 of them functioned and 96 of them operate in the same manner as **ACoin TRADING**. The 96 websites offer services for investment trading or permits to conduct trading. The websites have similar names such as the changing of only a few characters, the same manner of headers, navigation bars, main menus, mega menus, feature images, hero images, and footers.

9. See Exhibit A for the remaining 96 websites that operate in the same manner as **ACoin TRADING**. The remaining 127 websites that were not similar to **ACoin TRADING** involved businesses not related to securities or were websites that did not function properly.

10. 2,887 IP addresses were analyzed that were used by "sirzuka" when logging in, conducting transactions, placing orders, and creating domains on Namecheap Inc. All IP addresses originated either from Nigeria or from proxy servers based in Europe or the United States of America.

11. On November 8, 2021, a review of the registration files of the Alabama Securities Commission revealed no registration for the RESPONDENTS in any capacity.

12. A review of the Alabama Secretary of State's online database revealed no record for the RESPONDENTS as domestic or foreign businesses.

13. A review of the 127 websites that did function that were created by "sirzuka" were checked in the National Futures Association (NFA) Basic database and none of the websites were registered.
